

VRV, Ducted and Ductless Mini and Multisplits, Light Commercial RTUs

Air and Water Cooled Chillers (Scroll, Screw and Mag Bearing), Air Handling Units, Packaged Rooftop Units, Water Source Heat Pumps, Fan Coils, etc

Unitary ERVs and Modular ERVs/AHUs with Heat Recovery Wheel or Core, up to 60,000 cfm. Section Defrosting for 90%+ SER.

MURB ERVs and HRVs.

High-performance ventilation solutions for various applications. Supply / Exhaust fans, upblast exhaust fans, UL762 fans and make-up air for restaurant applications, ERV/HRVs.

Cooling tower solutions for industrial and commercial needs.

HVAC air management and life safety devices. Static and Dynamic fire dampers and Smoke Fire Damper.

Architectural diffusers, High-induction Swirl Diffusers, UV Diffusers, Linear Slot Diffusers, Long Throw Nozzle Jet Diffusers, Adjustable Diffusers, Thermodynamic Diffusers, and Constant Air Volume Dampers

Scalable ECM Fan-Arrays for Commercial HVAC . Great for replacements, space constraints or difficult to access jobs

DX / Hydronic / Heat pump coils; Fluid coolers up to 300mbh

Custom duct heaters

SCR Duct heater, Mini Make up air unit and Humidification.

Electric heaters, custom duct heaters, mini make up air

Desiccant dehumidifiers, portable dehumidifiers, ventilation fans, and indoor air quality solutions.

Whole-house humidifiers, dehumidifiers, air purifiers, ventilation systems, and thermostats.

Unit heaters, infrared heaters, air handlers, rooftop units, and ventilation products.

Precision air distribution solutions including diffusers and grilles.

Canadian-made HVAC units for any application. Indirect / Direct fired MUA, Explosion proof, Custom Air Handling Units, Industrial Cooling, Scrubbers and Dehumidification Units

Durable HVAC products such as exhaust fans and air circulators.

Humidifiers for Commercial and Industrial HVAC applications. Canadian Manufacturer with sustainable solutions

Modular Air-to-Water Heat Pumps and Chillers, 2-pipe and 4-pipe

Vapor injection compressors for low ambient operation (120F LWT @ 0F ambient) in Modules or Packaged units

The Sigma product offering includes a wide variety of Hydronic Heating, Vertical Stack Heating & Cooling, and commercial indoor DX cooling equipment. Omega Heat Pump provides all in one heating and cooling solutions for residential and commercial applications.

Industrial thermal management equipment including chillers and cooling towers. Fibreglass cooling towers up to 240tons, air-cooled and water-cooled chillers as low as 1 ton.

Louvers, control dampers, penthouses

100% Electric ERVs/HRVs, DOAS, MUA, integrate w/ Daikin VRV. 30 – 10,000CFM, Indoor & Outdoor. Low profile. MGRH for dehum.

Custom, Innovative Air Handling Solutions
